THE CREATIVE
BUSINESS SOLUTION

CELEBRATING 25 GLORIOUS YEARS
Established in 1981

Welcome!

We are manufactures of sheet metal stamp components and assemblies for automotive and other industries. We also do light fabrication and components on CNC press brake along with welding and allied activities.

Established in the year 1981 by Mr. R H Saindane In Chinchwad, In the heart of industrial belt. Who has dedicated years of hard work to his passion for customer satisfaction.

Major Machineries

Mechanical Presses
Shearing Machine
Pillar Type Drilling Machine
MIG Welding Machine
3 Axes CNC Press Brake
Fiber Laser Cutting Machine

- 10 Tons to 350 Tons capacity
- Cutting up to 6 mm thickness
-
- 400 Amps
- ERMAKSAN Power bend pro
- ERMAKSAN Fiber Mark Gen-3

Infrastructure

100 Hp connected loads
10 MT EOT crane – 2 Nos
5 MT EOT crane – 1 Nos
Concrete Flooring
15,000 sq.mtr. Cover shade
2,000 sq. mtr RCC construction
Photos 2 to 3 collating

Laser Cutting Services

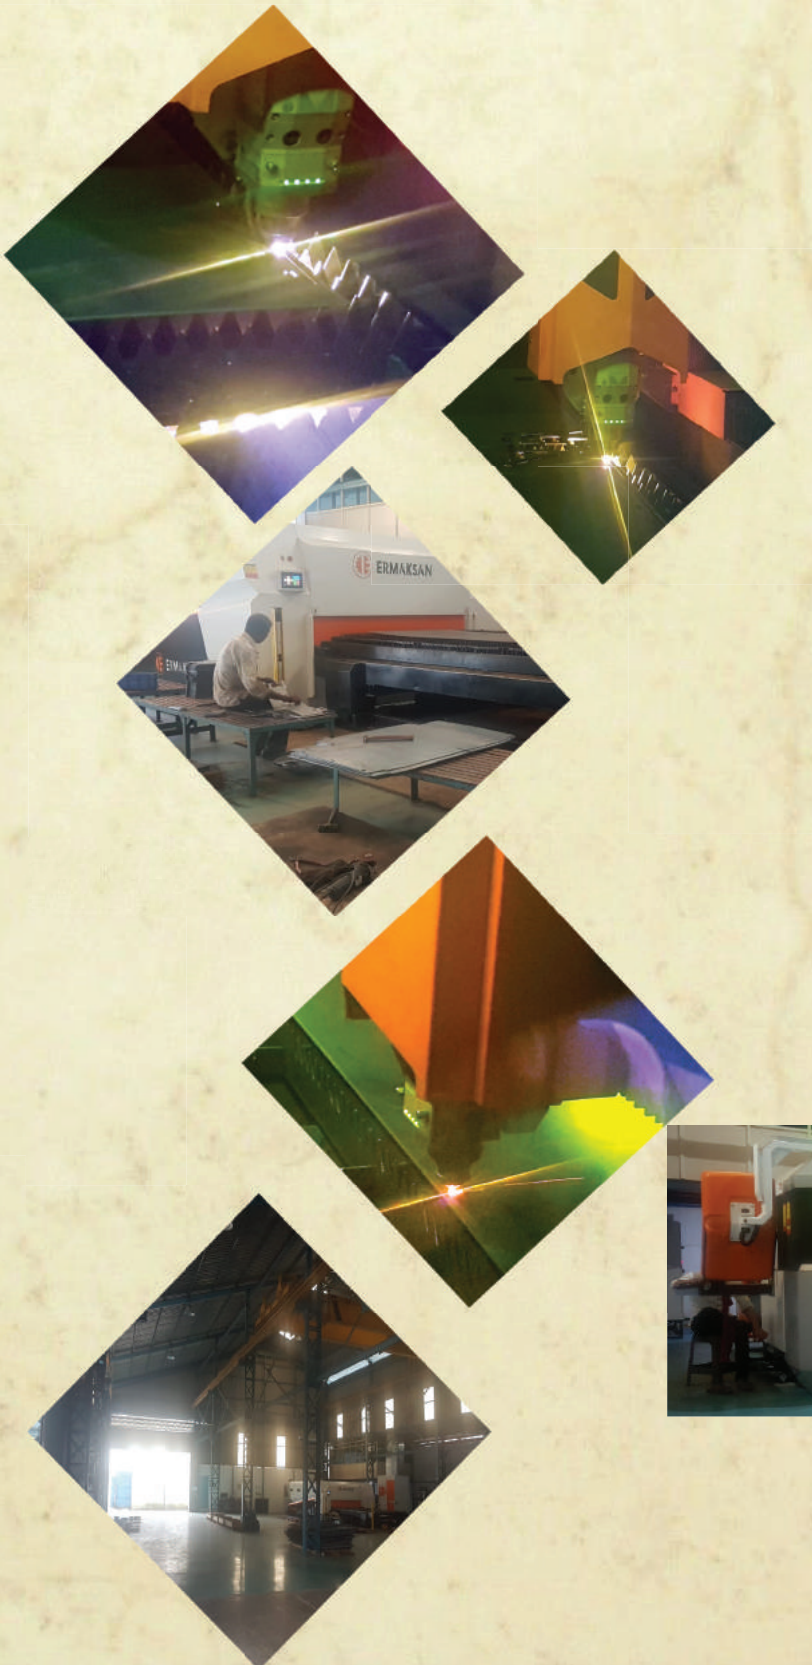

TEPL specializes in precision high-speed custom metal laser cutting services for a wide variety of applications and industries. With advanced equipment, streamlined processes and experienced staff, we have everything needed to deliver exceptional quality parts as efficiently and cost-effectively as possible.

+ The Process

Laser cutting is a material modification process where an intense beam of high-density light energy, guided by mirrors, cuts into metal, vaporizing the material upon impact.

+ Advantages of CNC laser cutting -

- Quick lead times.
- No expensive tuning cost.
- Narrow kerf widths.
- Minimal material distortion.
- Low setup cost.
- Quick changeover.
- Optimum utilization of sheet metal.

We have two manufacturing locations in MIDC area with adequate infrastructure for designing, manufacturing & assembling. According to customers needs

Quality

Q

We Tushar Engg Pvt. Ltd. are committed to provide Quality product that are in conformance with specified customer's Requirement and services fit for their intended purpose to ensure continous customer satisfaction.

We create an environment, which support high productivity and enhances workers skill. We strive hard to achive a goal of perfection in every aspects of out work and motivate others to do the same.
